HMF 1130K-RCS

The HMF 1130K-RCS is a reliable and wear-resistant crane with high lifting capacity at long reach, in high positions, and close to the column.

A strong crane with high lift-to-weight ratio

The HMF 1130K-RCS is fitted with a single Power Plus link arm system and an HDL-d speed adaptation system, which provide a very fast and precise handling.

The low tare weight and reduced space requirements of the crane provide a good lift-to-weight ratio as well as full utilisation of the truck body.

Main benefits

- Compact design
- Radio remote control system for total freedom
- Single link arm system on the jib for extra strength and stability
