NON-DUMPING FLAT DECKS

- Front and Rear LED Marker Lighting
- CNC cut window for visibility and safety
- Side Rub Rails with Pockets

Available in two standard lengths, Voth's steel flat deck is constructed for strength and durability with a heavy-duty crossmember understructure. A favourite in the building and lumber industry, both bodies support your delivery business in their own capacity. The 12' steel deck allows for versatile deliveries, quick load and unload and transfer to the jobsite. The 25' deck supports your lumber and home building deliveries with hitchhiker deck and optional backrack.

MANUFACTURING

Voth Courtland Manufacturing Facility: 92,000 sq.ft

Morden Manufacturing Facility: 56,000 sq. ft

Windsor Manufacturing Facility: 85,000 sq. ft

Voth Truck Bodies serves Canada and the U.S. with steel, aluminum, and hybrid truck bodies. Supporting a variety of industries, Voth has built a strong relationship with the landscape and tree care industries with their unibody dump body design and a range of chipper body and forestry body designs. A member of Drive Products Manufacturing, Voth Truck Bodies are now manufactured in three facilities across Canada. In addition to Voth's signature line of truck bodies, these facilities also manufacture Kargo King Roll-Off Systems, Big Max Roll-Off Systems and more.
